Jessie James Rafael

DEVELOPER + DESIGNER

I've been on this field for **almost 5 years** and graduated BSIT. My expertise are everything **Front-end Dev, Interface Design and Illustrations**. Had an opportunity to fly to Singapore and Thailand, where I did work on some projects and understands users across SE Asia. And yes, I belong to the small group of humans that can do both visuals and codes.

because printed CV is expensive
and I got lot more to show.

visit my beta online portfolio:
jjrafael.000webhostapp.com

*yeah, the url looks ugly but hey I will upload my portfolio to **jjrafael.com** soon ;)*
